

# Key Management System

## KM-24S

Only Authorized users have access to the keys with the authority settings, what's more, authorized users identify themselves (within a specific time period) via a users card, password and fingerprint at the land well terminal. All detail such as taking and returning of keys will be viewed completely in different reports.

- ☑ Unique multi-identification fingerprint verification
- ☑ Unique well-known advanced RFID, makes it
- ☑ Fully automatic
- ☑ Easy to operate
- ☑ PMMA glass or steel stainless door to make keys safer
